We invite you to "take a look" at an opportunity that could have a serious impact on your future. You'll have a chance to listen to powerful success stories of how people (of all ages) with the same concerns you may have, developed a proven plan to make their dreams a reality.

Can two hours change your life for the better? It did for our featured speakers.

Laura Evans: With 25 years as very senior corporate executive, Laura chose to move from high inside the corporate offices, to being an independent business owner growing her own company.

Carolyn Wightman: Jumped in from the Peace Corps to start a multi-million \$\$ multi-generational asset that consistently has paid well into 6 figures for decades.

Angel Torres: Transitioned from a professor of bio-medical engineering to developing a very successful international business.

They all now focus on developing and mentoring coming generations of people just like you.
