

Shaklee Social/Share Shaklee Mobile App

Go to the App Store® or Google Play® store on your home screen.

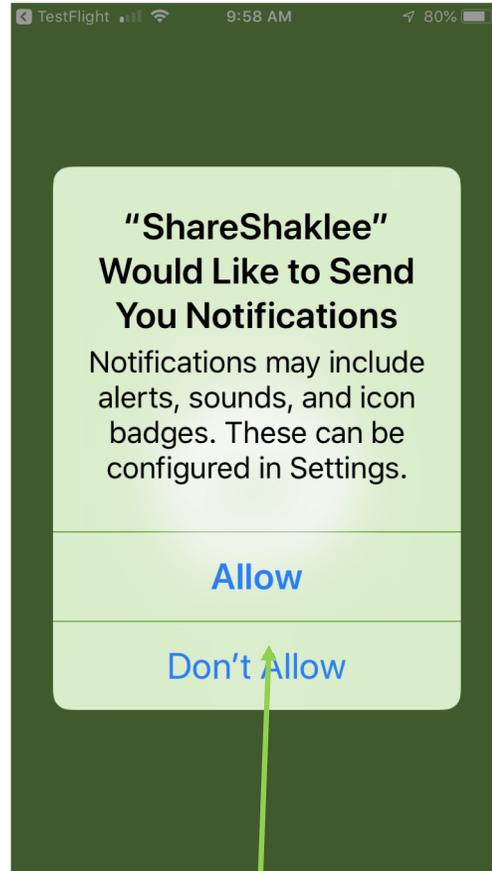

Use the search function to search for the app by name (shareshaklee). Then use the Get/Install button to download.

The App is now on your home screen ready to use!

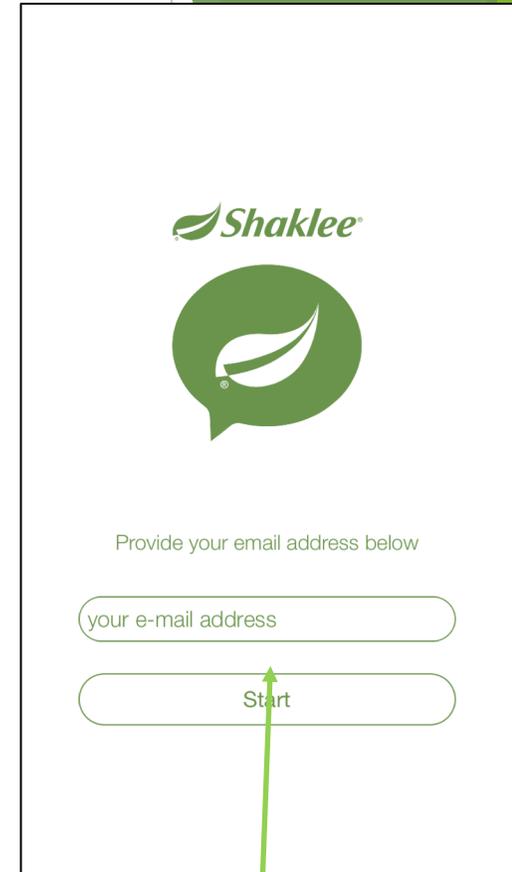

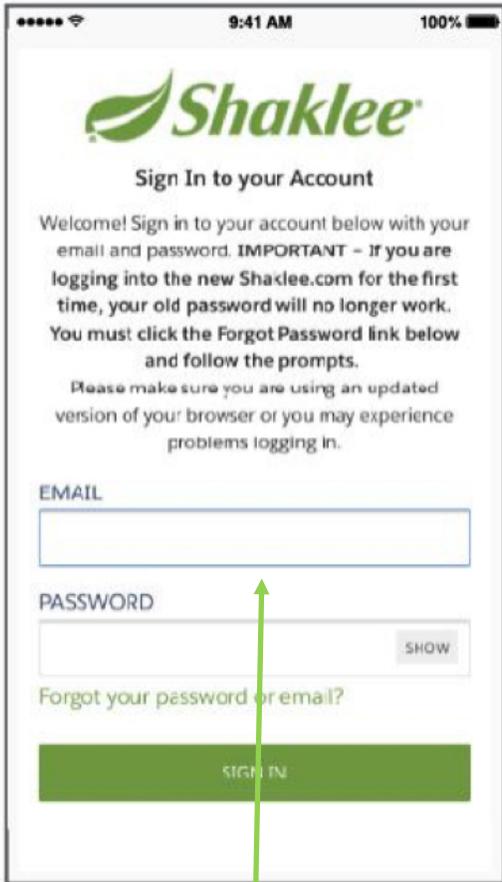

When you login for the first time you'll see the green splash screen.

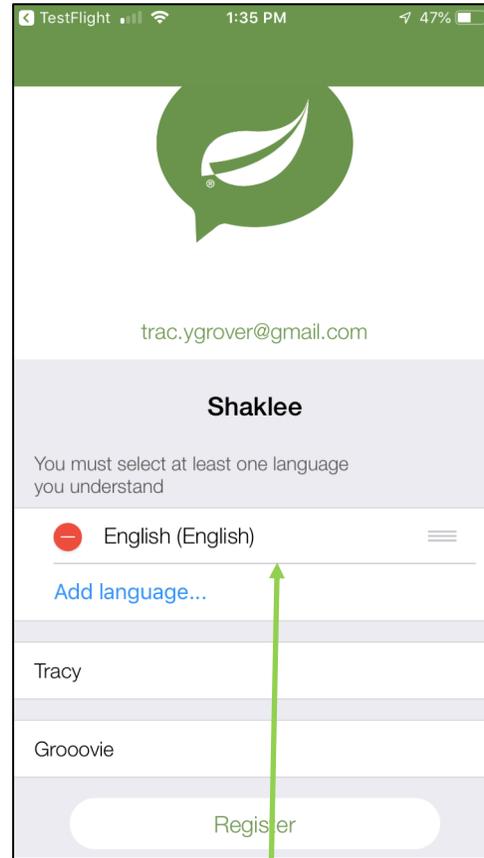

You'll then be asked your preference on notifications

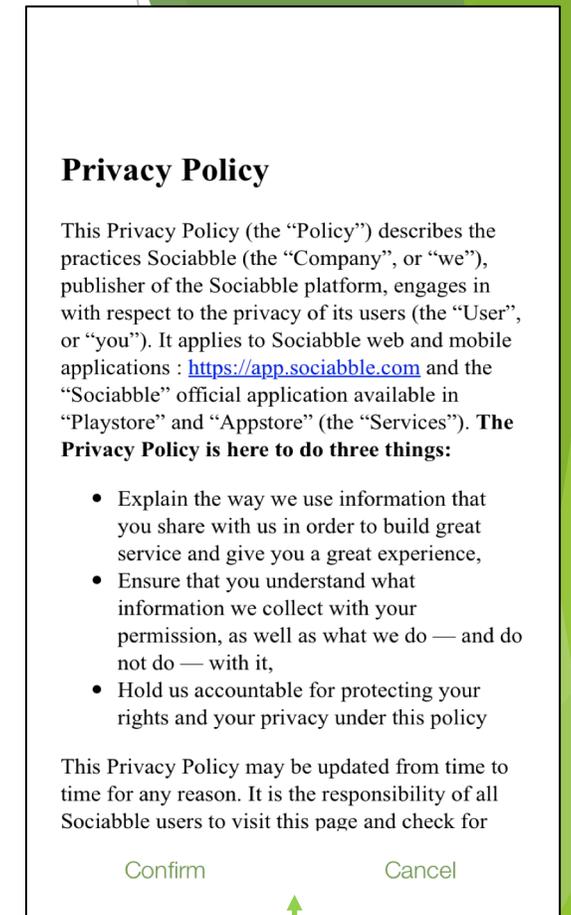

Next you will input your email. This should be the email you use on Shaklee.com

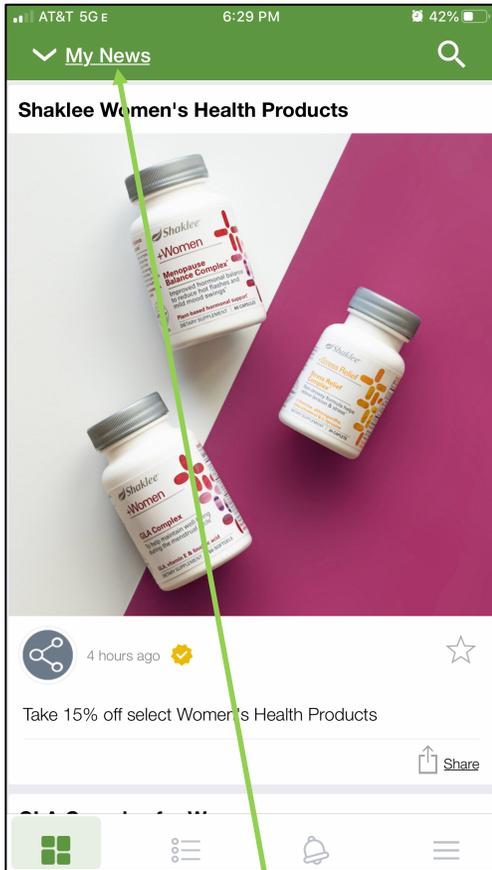

Then you'll reenter your email and the password that you use for Shaklee.com.

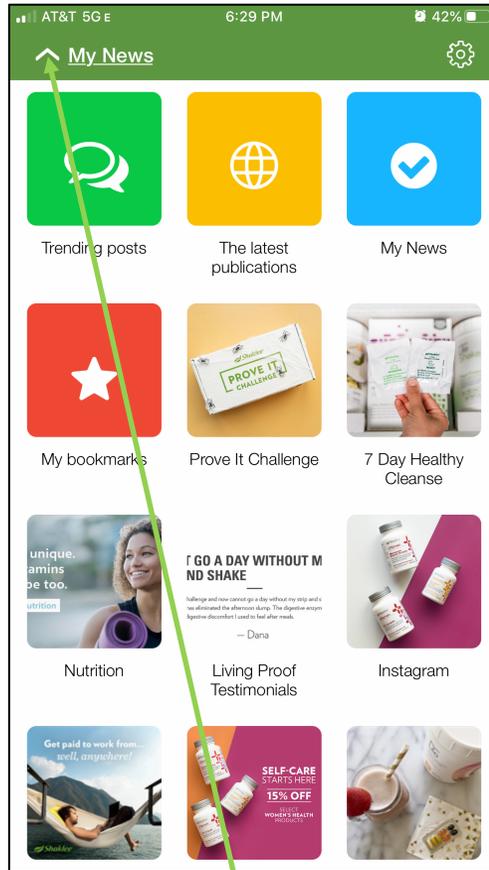

When you first launch the app, you'll be asked to select your language preference.

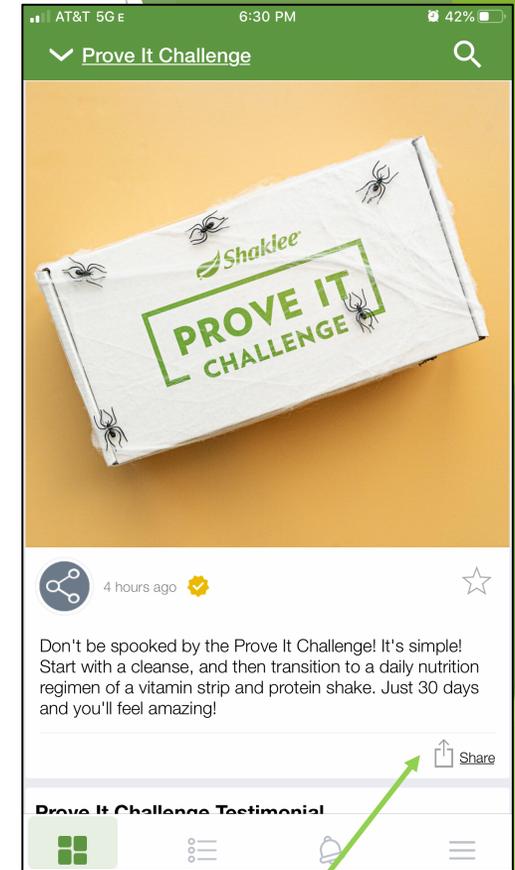

You'll also have the opportunity to review and accept the App privacy policy.

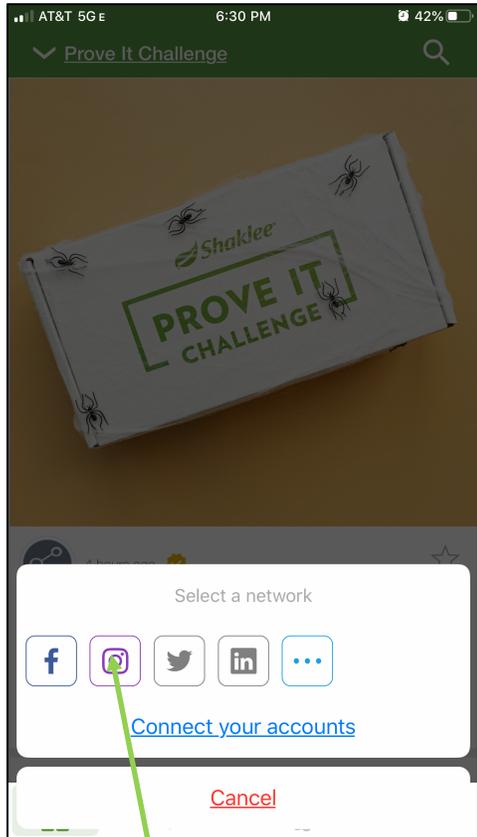

You'll land on the default channel you've selected.

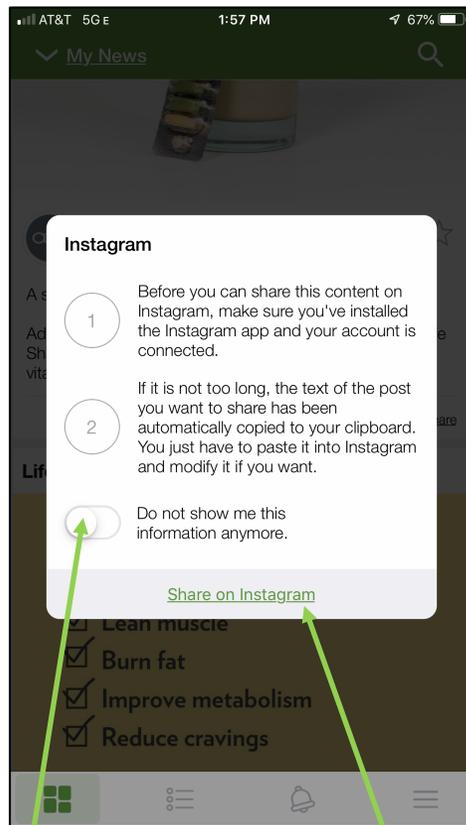

Use the carrot in the top left corner to change the channel that you're viewing, based upon the content you want to share.

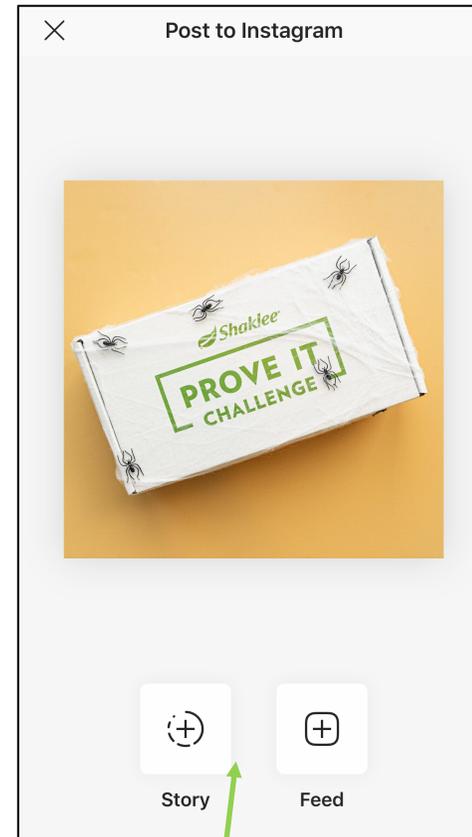

Once you've found the content you want to share, click on the share icon in the bottom right corner.

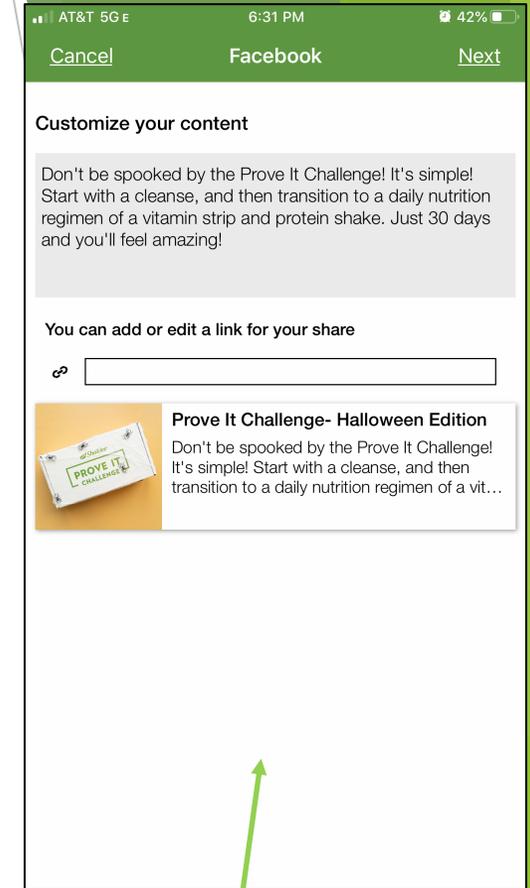

To share to Instagram® use the Instagram icon under select a network.

As long as you have the Instagram® app already on your phone, you can ignore this message. Use the toggle button to select “do not show me this again.” Then select Share on Instagram.

You can now post to Instagram Stories or your Feed.

You can also share to other social accounts. But you must connect your other accounts (Facebook®, LinkedIn® and Twitter®) in Shaklee Social first, then you can share.
